SUMMARY

Computer Science Engineering student (B.Tech, 2027) with a strong foundation in programming, databases and web development. Skilled in Java, JavaScript and MySQL, and interested in building full-stack applications. A quick learner who enjoys problem solving and working in a team.

EXPERIENCE

Java Developer Intern (Remote) | QOE Technologies and Services May 2026 – Jul 2026

- Developed and debugged Java software in a remote team, following professional coding standards.
- Handled sensitive financial data under strict data-security and confidentiality (NDA) protocols.
- Delivered tasks independently on a flexible schedule, communicating progress to the supervisor.

Software Developer Intern | QOE Technologies and Services Oct 2025 – Mar 2026

- Developed software solutions in a remote team environment, adhering to professional coding standards.
- Maintained data-security protocols for financial and technical data while completing tasks on time.

Marketing & Creative Intern | Shivani Creation

- Coordinated requirements between management, clients and vendors; produced media content and maintained project documentation.

TECHNICAL SKILLS

Languages: Java, JavaScript/TypeScript, PHP, SQL

Frontend: React (basics), HTML5, CSS3, Bootstrap, responsive design

Backend & Databases: Java (OOP), PHP, MySQL, DBMS concepts, REST API's

Tools & Practices: Git, VS Code, AI-assisted development tools, debugging, code documentation

CS Fundamentals: Data Structures & Algorithms, Operating Systems, Computer Networks, Software Engineering

PROJECTS | Github.com

- **Jana Kalyan – Co-operative Society Platform:** Full-stack application with HTML/CSS/JavaScript front end, Java (OOP, inheritance, polymorphism) model layer connected through JDBC to a MySQL schema. Implemented member/admin role separation, loan types with interest schedules, and Google OAuth sign-in with local Storage fallback.
- **PGLife – Paying-Guest Accommodation Portal:** Full-stack web app using PHP, MySQL, Bootstrap and a React front end. Built city-based property search with filtering and sorting, property detail pages, user signup/login with session authentication, a user dashboard, and an "interested" toggle served through PHP JSON API endpoints.
- **Portfolio Website & Projects Showcase:** Responsive multi-file site in HTML, CSS and JavaScript with project filtering, sorting, dynamic project addition and session Storage persistence; fixed CSS stacking-context and DOM-sorting bugs.
- **Student Management System:** Java desktop application using core OOP principles for efficient data handling.

EDUCATION

Netaji Subhas University, Jamshedpur Expected 2027

Bachelor of Technology in Computer Science Engineering

Relevant Coursework: Data Structures & Algorithms, Database Management, Software Engineering, Web Technologies, Operating Systems, Computer Networks.

Blue Bells English High School 2021 – 2023

Intermediate (Class XII) – CBSE, Science Stream

Adibasi Kalyan High School 2019 – 2020

Matriculation (Class X) – JAC

CERTIFICATIONS

- **Full Stack Web Development with AI (Grade A) –** Internshala Trainings / Scholiverse Educare, Skill India & NSDC; 8-week program: HTML, CSS, Bootstrap, JavaScript, PHP, DBMS, DOM, React. Jul 2026.
- **Introduction to Generative AI –** Google Cloud completion badge (Google Skills), Mar 2024.
